Boston, April 15.—Ruth need Philadelphia to four hits in as many innings in the first game of the season here today, Boston winning 7 to 1, in a none too cleanly played contest. Conditions for the game were the best this city has seen in years for an opening contest, yet the attendance was only slightly over 7,000.

Before the game the teams paraded, displaying third Liberty Loan insignia. The Royal Rooters of this city presented the team and Owner Frazee with floral pieces. Mayor P. ters made the presentation speech and threw out the first ball.

President Wilson, who usually throws out the first ball, was not able to be present and District Commissioner Louis Brownlow acted in his place. The only cermony was the raising of the American flag while a band played "The Star Spangled Banner" and the players stood with heads bared. The 13,000 spectators listened attentively to a Liberty loan orator and later cheered lustily when a huge Capronl biplane flew over the field dropping miniature Liberty bells.

rible war, in any great moral datastrophe of nations or individuals? If God were to do that—if He were to interpose, the scepter of omnipotence every time a king were ubjust, or a or merchant dishonest, or a seducer plotted the ruin of woman, or a murderer whetted his knife; if He were to wipe out the Neres and the Torquemedas, the Dukes of Alva and the Bonapartes and the Kaiser Wilhelms, as fast as they gave offense to the conscience of the world—two things would happen:

at this time.

Besides josing this great battery, the enlistment in the military service of Eppa Rixey and the failure of Chief Fender to report, Manager Pat Moran has been troubled with a number of hold-outs and his team is now only rounding into shape for the opening of the championship season this week.

Moran has combed the country for pitching tatent but has thus far been unable to make up for any of the loss sustained in the gale of Alexander and Killifer. Mayer and Oeschger are the most reliable of the pitching stan which also includes Ben Tincup, the Indian. The catchers will include Burns, Adams and Dillhoefer, the latter a new comer from the Chicago Nationals.

The Phillies' manager has picked up several good youngsters to replace Dode Paskert, who was sent to the Cubs, and others missing from the team this year. Luderus will be at first as usual; McGaffigan, a youngster, will probably cover second base in place of Bert Niehoff, should the latter fall to don a uniform. Bancroft will be at short and Stock at third.

In the outfield there will be Cravalle in the worlds progress. In a word, that method of Divine will am world the worlds progress. According to the magnitude and enormity of our sins, we are all in conflict with the Divine Will and obstructors of the moral order and advance. Practically, if we had our will and prayer, and God stepped in to foreibly stop every infraction of His wise and holy law the whole human race would have to be annihilated.

2. The whole moral order and plan of the Almighty would be wrecked and His purposes brought to naught. For that plan has conferred liberty upon the human will, and trusts the safety and final good of the universe to man's free use of that power. To forcibly check and destroy those who choose the wrong, would be to violate the very freedom to a state of rigteous-ness.

In a word, that mevid would be left tenanties and bare would be violated the very freedom to a state of rigteous-ness.

In a word, that method of Divine procedure would Prussianize the moral universe. Precisely such an order is what the Teutons wish to create and make the dominating force in the political world. They believe in a social and civic order in which the will is at the ten and works downward. The the top and works downward. The citizen is controlled, automatized, without a will of his own. The will of the Kaiser must be the will of the subject. This is the public and direct the rest of the world. It is to resist this imposition as the sum of all that

expressed in that saying of Mr. Boant Law in the English Parliament: "A free government is better than a good government." The American Idea is one with the idea of God Himself, that the way to the highest good and joy for man is to set him free, and let him learn, in the hard school of ex-perience and discipline, how to live his own life under tself-control. It costs enormously; but it pays beyond all estimate. Let us praise, and not challenge, the wisdom and the bene-eficence which have made man free, that he might become god-like.
